

11th May 2018

Dear Sir/Madam,

It is with great pleasure that we invite you to the seventeenth Inter-School Multimedia Contest. This annual event is aimed at sensitizing adolescents about current social issues, which the students showcase through their skills and awareness in the field of technology.

The topic for this year's Multimedia Contest is **“Success at any Cost.”** The contest will be held on **Friday, the 24th of August 2018.**

Competition can be the driving force to excel and achieve your highest potential. On the other hand, it can also be a temptation to choose any means to achieve instant success. The recent incidents of cheating in public examinations and fraud in the banking sector have laid bare a culture in which success became such an obsession that any shortcut to achieve it was acceptable. Keeping this in mind participants can present their stand on the given topic.

We will also be organising three other events besides the Multimedia Presentation, these are:

- Music-bytes
- Game-o-matic
- Tech-o-bytes

Please see the attached document for details of these events.

Guidelines for the presentations along with the rules and regulations for the contest and the other events are also enclosed. These are also available on the school website – www.vasantvalley.org.

You can register your teams for all the events including the Multimedia Contest on our school website www.vasantvalley.org by clicking on the link “Registration for Multimedia Contest 2018”. Alternatively, you can mail the names of the participants by 17th of August 2018 to Ms. Sonya Bahri (bahri@vasantvalley.org).

Please feel free to contact us in case of any queries or clarifications on phone (26892787/9810057270) or via email (bahri@vasantvalley.org).

We look forward to your school's participation in the contest.

Warm regards,

Rekha Krishnan
Principal
