**Name of Book: Fablehaven**

This book is AMAZING !!!! Its about two children Seth and Kendra who go visiting their grandpa Sorenson but there is something strange about the fact that there grandma is never there, or the hundreds of hummingbirds that gather around a single pot of milk every day and the never ending stretch of land that he owns. They soon figure out the puzzle, and drink the same milk which the hummingbirds and insects do and the veil is removed from their eyes which allows them to see magical beings. The hummingbirds and insects are fairies, the owls are astrids, the goats are satyrs and the horses are centaurs! There are much more magical beings in the world that Kendra and Seth think there are and when they find out that an evil witch is on the loose and is on her way to free Bahumat a powerful and cruel demon they will do anything to stop her.

I strongly recommend this book for Harry Potter lovers
