

Rahil Datta, 5-C

Name of Book: The Adventures of Tintin

Genre: Adventure and Mystery

The story is about when Tintin, Snowy and Captain Haddock try to find the lost treasure of the Unicorn ship. But to find it they have to fight Red Rackham, and he will not rest until he gets his revenge on Captain Haddock.

Tintin is a mystery man, and is always on the hunt for many many clues. Snowy Tintin's pet dog just scared away the criminals and saved Tintin many times. Captain Haddock has a big problem of going haywire and sometimes remembers really old things, but he just also forgets millions of things that are really important.

Tintin reminds me of myself when I was a little baby. I was very mysterious and I would find things that were very important and was determined to keep these things.

I think the book is very descriptive, it is very adventures .But I think it had a few unneeded pages and sentences. Overall I would recommend this book to my friends but it might be a little boring for adults. But most of you will love this.
