Name of Book: Harry Potter and the Half Blood Prince

Genre Adventure

The story was about Harry Potter, Ron and Hermonie trying to defeat Voldermort, who was the king of the evil wizards and Harry was trying to defeat Voldermort. Harry was a helpful human being who could do magic. Hermonie was a kind and cunning wizard and could do magic. Voldermort was an evil king and was trying to rule the world. Harry Potter reminded me of my friend Ishaan who always tries to fight for his rights.

This book was really interesting and I recommend this book to people who read books.

Name of Book: Harry Potter and the Philosopher's Stone

Genre: Fantasy

The story was about a boy whose parents were wizards. He didn't know that his parent had died when he was only a year old. The boy's name was Harry Potter. He was brought up by his aunt and uncle who were very mean to him. When he was about 11 years old he started getting mysterious letters but his aunt and uncle did not let him read them. Then one day a giant came to get him. Harry then learnt that he was a wizard and the story of how his parents had died trying to save him from an evil wizard. After a lot of magic, Harry's aunt and uncle let him go with Hagrid to Hogwarts. This was the turning point in Harry's life

Harry Potter is a very brave and adventurous boy whose best friends are Hermione and Ron. Harry, Hermione and Ron always worked together and succeeded against the dark forces.

The story reminded me of children at the orphanage and I dread that they are treated so badly. I think that this is a really good book. I like it as it is very interesting and entertaining. I recommend people to read it.

It is summer and Harry has got no letters from Ron or Hermione. Dobby comes home and says 'There is great danger at Hogwarts'. What did he mean? Harry goes to Hogwarts and all his Muggle friends are being attacked. The word around Hogwarts is "Chamber of Secrets is open again". What does that mean?

Harry Potter- A boy without any parents; Hermione Granger- Muggle born and highly intelligent;

Ron Weasley- A boy with magical parents and five siblings. All three are in their second year at Hogwarts

Tom Riddle/Voldemort- The darkest wizard of all time.

I highly recommend this book. It is perfect for young readers. Wizards Sells just what young readers need, some imagination
