Mr. Hoppy is in love with a lady who stays in the house below his. Her name is Mrs. Silver. And she has a tortoise that she loves. The name of the tortoise is Alfie but the only problem about him is that he doesn't grow. So this story is about how one day Mr. Hoppy buys hundreds of tortoises. Every week he changes the tortoise and every week it is a bigger tortoise and in the end how they both get married.

Mr. Hoppy is an old man who stayed alone in his house. Mrs. Silver is a lady who is not very young either and loves her pet tortoise. Alfie is Mrs. Silver's pet and does not grow. Mrs. Silver reminds me of a lady who stays in my building.

I liked this book because it is interesting how Mr. Hoppy replaces the tortoise for a different one every week while trying to get Mrs. Silver's attention.

Have you ever wanted to turn yourself into something else? I bet it would not be a tortoise. This story is about a man who is in love with a very sweet and kind woman but is extremely shy to tell her and how this tortoise gets them together and brings happiness to them.

The main characters are Mr. Hoppy, Mrs. Silver and Alfie the tortoise. Alfie's role showed me that an animal can do so much to help us.

I think this book is really good to read. You can learn so much. Just a little tortoise can bring happiness to your lives. My opinion is that this book is great for children. They can learn a lot about people's lives.

Name of Book: The Twits

Genre: Humorous

The story is about a husband and wife who plays tricks on each other and these tricks makes life interesting for them.

The main characters are Mr. Twit and Mrs. Twit. First I will tell you about Mr. Twit: he is very dirty because when he eats his food he never cleaned his beard. He is also naughty too. Now I will tell you about Mrs. Twit-she is enormous and is very grumpy at times.

They remind me of my grandma and grandpa because even they fight like that but they do not play tricks like these because they are too old for tricks

I think the book is very interesting for me because I got to know more tricks that I can play on my brother. It is interesting to know that even old people can play tricks.
