

SUGGESTED READING LIST

NURSERY-2012

This is an indicative list. It is a good idea to start with a book in an area in which your child is interested [trains, dogs, baby sisters, etc.]. Silly stories, wordplays and guessing games entertain this age group, who are now more verbal and eager to participate actively in story time. Discussing the illustrations help the child look for context clues. Continue including "how" and "why" information books in your reading.
